Open-Ended

8

What were the most beneficial aspects of this course? (Please be specific)

(Text/Memo)

- It was only one hour a week but a lot of ground was covered over that span and in the discussion board
- This course really opened my eyes on a lot of different aspects of life, as generic as that sounds. I always left the class thinking more and more about how I perceive my life and how others go about doing so too.
- I learned a lot from the lectures and powerpoints.
- Open-ended discussions were great as we were able to hear everyone's thoughts on discussion topics
- I liked getting to actually have discussions with other students. The face to face time was needed especially with us online.
- I enjoyed the class discussion and reading

What are your suggestions for improving this course? (Please be specific)

(Text/Memo)

- Have the elaboration be shorter so more time can be given to the students to participate more
- With it being online, it for sure is hard to master a class in any subject. A suggestion I would make is maybe including breakout rooms or possibly mixing up sections (if possible) to hear what other students have to say. However, this is minor, I think that this class was constructed in a very organized way.
- Go slower on the powerpoints and maybe make the slides less dense.
- The bi-weekly journals in which we record our thoughts on the units were a bit tedious for me because I spent a lot of time either doing verbal discussions on zoom or written discussions on the BlackBoard discussion board. When I wrote the journals, I felt like I was repeating my ideas over and over -- the only difference being that the journals followed a formal writing format.
- Maybe the wording of some things could be a bit simpler. It might just be a me issue, but some words just didn't make sense to be used together to me.
- if course continues to be online, it would be helpful for students to have more time to speak. Make courses smaller or create more time for student discussion
